- Dispose of batteries safely.

ATTENTION ADULTS—TO REPLACE BATTERIES

- The Ultimate Spy Watch requires 1 (CR2032) 3V lithium button-cell battery.
- Loosen the Phillips-head screws on the **WATCH BACK** and remove (Fig. 4).
- Loosen the 2 **SCREWS** on the **BATTERY CLIP**. Remove the battery and the clip together.
- Unclip old battery. Install new battery + side up
- Replace and screw the battery and clip assembly onto the circuit board.
- Replace the watch back and tighten screws. Be careful not to overtighten.
- Reset Ultimate Spy Watch by inserting a bent wire such as a paper clip thru the slot shown in Fig. 5 until it stops. Press firmly to reset watch.

NOTE: Ultimate Spy Watch may experience memory loss if subjected to an

WARNING: Changes or modifications to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.
