

Water Babies®

The Most Realistic Babies Ever!

Ages 3 and Up
51001-51024

Easy to fill!

All Water Babies dolls are designed with an easy-fill, leak resistant, water tight valve.

To fill

1. Open the valve on the doll's back, Fig. 1.
2. Firmly insert the funnel using the alignment marks on the doll and funnel, Fig. 2. You will feel the funnel snap into place.
3. Slowly fill the doll with warm tap water. To fill her completely, it may be necessary to "burp" the remaining air out of the doll while the funnel is in place.
4. Remove the funnel and close the valve.

Thank you for purchasing this lovable Water Babies doll. Great choice! Please save this instruction sheet, it shows how to fill (AND REFILL) your doll. Enjoy!

Special Tips

- Remove your Water Babies doll's clothes prior to filling.
- Every Water Babies doll has an antibacterial lining, however, it is still recommended to change the water at least once a month.
- **KEEP YOUR FUNNEL**, so you can refill your Water Babies doll with warm water.
- **Warning:** Do not place your Water Babies doll in a microwave or conventional oven to heat the water. Overheated water can create a serious safety hazard and may damage the doll. Fill only with warm (not hot) water to avoid burn injury.

Important Notice: Water Babies dolls meet or exceed all U.S. and international standards for phthalates.
