

Verticon™ Air Battle Arena

Important: Please save this instruction sheet. It contains valuable product information.

ASSEMBLE THE VERTICON AIR BATTLE ARENA

1. Insert the **MAIN AIR UNIT** into the **TRIPOD BASE** making sure that the **THROTTLE LEVER** clears the opening first as shown in Fig. 1.
2. Rotate the main air unit until the crosshair symbols align (Fig. 2) and then snap main air unit down into tripod base.
3. Press the 3 **ARMS** into the slots on the sides of the **ARENA**. (Fig. 3)
4. Plug assembled arm and arena into tripod base as shown in the finished view.
5. Plug **AC ADAPTOR** into main air unit below **POWER SWITCH** and plug the other end into the wall. (Fig. 4)

ARM YOUR WARRIORS

1. Choose your weapons and plug them into one of the holes in your warrior. Insert them until they hit the stop, so that they are locked in. (Fig. 5)
2. Don't push the weapons in too far or you will damage the hole making it too large to hold weapons.

SETTING THE AIR FLOW

1. Place one warrior without weapons into the bowl.
2. Turn on the power switch. The fan launches the warrior into the air.
3. Use the throttle lever to adjust the air flow until the bottom of the warrior hovers 3-4 inches above the rim of the arena. This is usually the best setting for battle.
4. If the battle is lasting too long, you can adjust the throttle to the right to increase the air flow. If the battle is ending too quickly, adjust the throttle to the left to decrease the air flow. Adjustment of the throttle should only happen after a battle is over and only if both players agree to the change.

GAME PLAY

Refer to your Verticon Game Play Instructions to learn how to play with your Verticon Air Battle Arena!

SAFETY

- **Warning!** Use Verticon Air Battle Arena under the direct supervision of an adult.
- Adult assembly required.
- **Danger!** To avoid electric shock, never use around water or wet surfaces.
- Never leave Verticon Air Battle Arena plugged in when not in use.
- Never leave Verticon Air Battle Arena unattended when switched ON.
- Never plug in main air unit when unit is disassembled.
- Never insert any object into the fan blades. Damage to the Verticon Air Battle Arena or personal injury could result.
- Verticon Air Battle Arena is fitted with an automatic switch that will shut OFF if the motor becomes jammed or overheats. If this happens, please turn off unit, unplug and wait for unit to cool down.
- This toy is not intended for children under 3 years old.
- This toy must only be used with the recommended transformer. d.c. 9V 1A. ⚡ a.c. 120V 60Hz 16W
- The transformer is not a toy.
- If the Verticon Air Battle Arena needs to be cleaned, disconnect it from the power adapter and wipe with a damp cloth. Never immerse the Air Battle Arena in water.

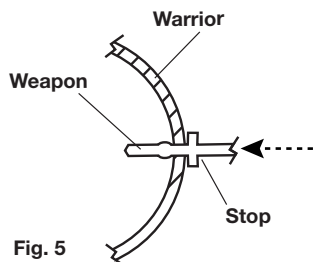

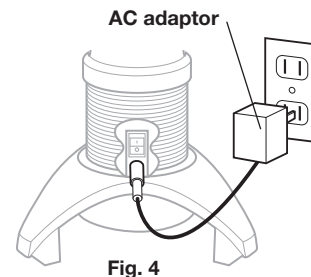

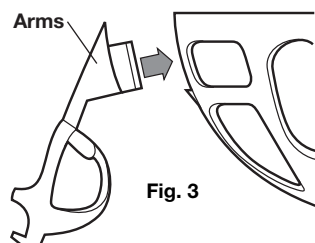

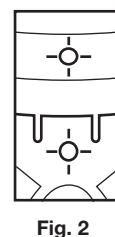

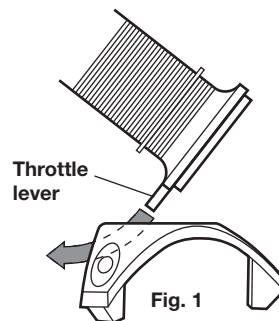

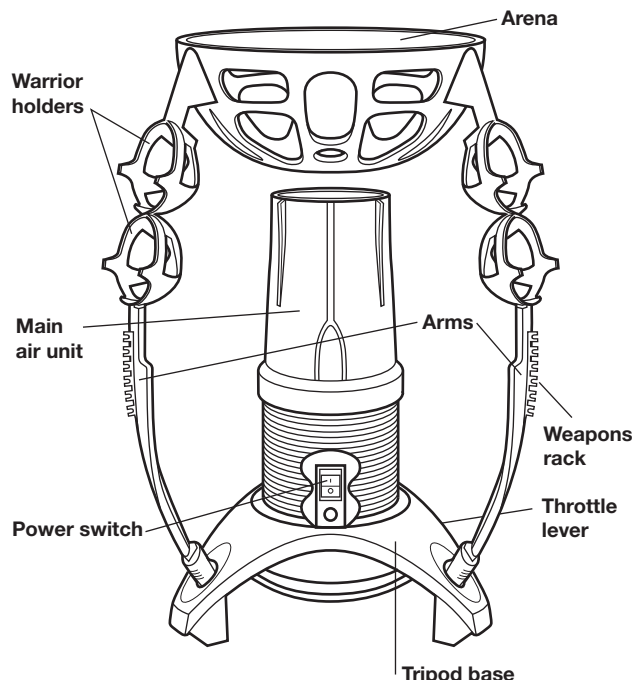

QUALITY

For best results:

- Only use Verticon Air Battle Arena on a hard, level surface.
- To preserve the life of the Verticon Air Battle Arena, do not pull on the cord to remove the plug from the wall.

PARENTS:

- It is recommended that this toy be periodically examined for potential hazards and that any potentially hazardous parts be repaired or replaced.
- The transformer used with this toy is to be regularly examined for damage to the cord, plug, enclosure and other parts, and that, in the event of such damage, the toy must not be used with this transformer until the damage has been repaired.

CAUTION—ELECTRIC TOY:
Not recommended for children under 7 years of age. As with all electric products, precautions should be observed during handling and use to prevent electric shock.

⚠ WARNING:
CHOKING HAZARD —
Toy contains small balls & small parts.
Not for children under 3 years.
